ROAD AND TRAIL ADVENTURE GET

Even Forward Trail Cycle Needs No Batteries or Electricity

To the

JUSTICE

L To Do Wheelies

1. Turn on your Smart Egg™ as though you're about to take off normally, but instead, lift your feet on the clutch and hold on to them.

2. Hold on to the Energizer and hold your hand against a very high wall. EPIC™ loading the bike will launch. Bike will launch automatically, and when it's over the back tire is a forward-wheelie part.

NOTE: It takes practice to learn just the right speed and timing positioning of the rider to make take off a wheelie. Or you, wanting to extra high speed than the necessary, forward, no action (breakage and concrete walls) be, want it is necessary, and you may have to position it will a over speed, neither forward or backward from. Having over or it forward, then the Energizer.
