EVEL KNIEVEL™ STUNT AND CRASH CAR WITH FIGURE

Even when he has four wheels, Evel is still a two-wheel daredevil. His gyro-powered Stunt and Crash Car accelerates out of the energizer balanced up on its two side wheels. Evel is inside in complete control until he hits an obstacle . . . then *crash* the car explodes apart with Evel safely strapped to his seat inside the roll cage. Fenders, hood, body and chassis re-assemble quickly and easily for another spectacular stunt and crash run. A simple twist of the air cleaner hooks the body onto the chassis for stunt runs with no explosion. The red, white and blue paint job and big number "1" tell everyone that this car belongs to the King of the Stuntmen.

Pack: 6/12 doz. Wgt: 15 lbs.
